Automatic Bag in Box and Super Pouch filler AUTOFLOW 300

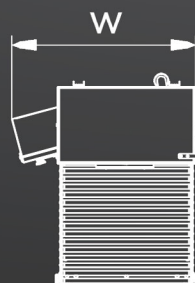

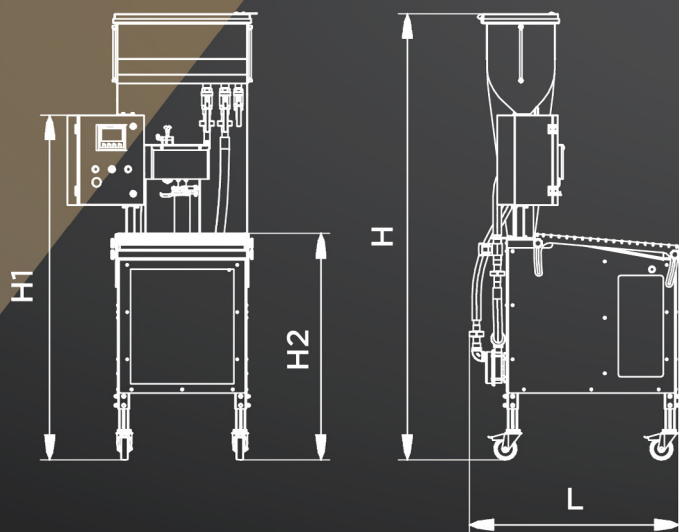

AUTOFLOW 300 is designed for filling hot and cold liquids into Bag in Box and Super pouch packaging. Just put the bag or pouch into the filler and after a few seconds you can take the package out filled with liquid.

Capacity – 300 pcs. of 3 liter bags per hour.

- Easy-to-use mechanism does everything automatically. After putting the bag into the filler, it automatically takes out the tap, vacuums the bag, fills it with liquid and closes the bag.
- Hot and cold filling of bags and pouches is possible from 0,5 litres up to 220 litres.
- The possibility of filling bags and pouches with different closures.
- The buffer tank for hot filling is integrated.
- Float inside the tank for regulation of liquid level.
- Touchscreen panel is integrated.
- Repeatability of volumes is with an error of $\pm 0,5 \%$.
- Easy-to-adjust filling table for different volumes of bags and pouches.
- Working surface of the table consists of conveyor rollers which are easy to clean and help for the smooth slide of the bags and pouches.
- Easy to clean after work.
- Mounted on pivoting wheels.
